

Agreements of ACTION Software

I request access to ACTION software for research purposes. I agree to the following terms.

1. To access ACTION services, please provide information about users/applicants as part of the registration process for the service and ensure that the registration information is accurate, correct and up to date.
2. Any publications, books, posters, reports, algorithms, etc. published using results generated by ACTION, please cite the following paper:
Fang, Yuqi, Junhao Zhang, Linmin Wang, Qianqian Wang, and Mingxia Liu. "ACTION: Augmentation and Computation Toolbox for Brain Network Analysis with Functional MRI." arXiv preprint arXiv:2405.06178 (2024).
3. The name of the user's institute/organization will appear on the user list of ACTION.
4. The services provided by the website of ACTION may change from time to time and the ACTION may stop permanently or temporarily providing the services or any features without prior notice.
5. ACTION is a research prototype and may therefore contain possible imperfections or errors for which the ACTION owners disclaim any liability.
6. The ACTION software was shared by the Machine Intelligence in Biomedical Computing (MAGIC) lab. The MAGIC lab reserves the right to the interpretation of the above terms and conditions.

NOW, THEREBY, by signing below, I agree that I have read, understand, and agree to the conditions set forth above.
